Comprehensive Pharmacist Review for Quality Assurance

Each prescription is reviewed carefully for drug allergies, drug interactions, appropriate dosage and appropriate therapy. Once your medication order has passed our rigorous review, we review it a second time before preparation and packaging. Packaged orders are reviewed one final time, double-checked for accuracy and prepared for delivery.

Pharmacist Consultation Services

In addition to our thorough review process, you can count on our pharmacists to periodically review your medication regimen and promptly report any issues or “red flags” they identify.

Service You Can Depend On, Day & Night

Providing long term care solutions reliably means offering around-the-clock service. Our LTC pharmacies are available 24 hours a day, 7 days a week, including holidays.

Trust the Long Term Care Experts

From one-on-one attention to carefully monitoring your medications, our expert LTC pharmacies deliver friendly, personal service to every resident.
